

## Section 12: Practice Project : Building a Quiz App

Saturday, September 28, 2024 7:53 PM

# Working with Effects

## Practice & Dive Deeper

- ▶ Apply Your Knowledge
- ▶ Dealing with Effect **Dependencies & Cleanup**
- ▶ Combining Effects with Other React Concepts

```
2  import ReactDOM from 'react-dom/client'
3  import App from './App.jsx'
4  import './index.css'
5
6  ReactDOM.createRoot(document.getElementById('root')).render(
7    <React.StrictMode>
8      <App />
9    </React.StrictMode>,
10 )
11
```

Strict Mode actually calls every Component function twice behind the scene. Since this can help catch certain issues.
